REPORT FROM THE TOWNSHIP MANAGER

Township Manager McCauley announced that the security cameras in Winder Village have been installed and are operational.

Further the box lights in the front parking lot of the Municipal Building have been updated to the new LEDs. The Township has approximately 90 to 100 lights that still need to be updated to the LEDs and that we are now in the Township parks and playgrounds to improve the lighting system. Township employees will be trained in the coming week in the Star Sense system. We are currently using the Star Sense technology to give PECO better information to get lights operational quicker when there are power issues.

The street sweeping schedule was recently posted. The sweeping will begin on Monday April 6 and Mr. McCauley asked that residents take notice to the date their street is scheduled for sweeping and asked that residents please do not sweep debris into the streets as it will go into our storm drains resulting in the debris moving into our waterways.

Mr. McCauley recently received the 2014 Revenues and Expenditures report from Finance Officer. He will present a full 2014 Financial Operations Report at next month's Council meeting. McCauley is pleased to announce the Township had another great year. This was a great job done by the Department Heads managing their budgets and we also beat revenues fairly well. McCauley stated he was pleasantly surprised.

Mr. McCauley thanked the Public Works Department once again for their efforts in delivering exceptional services to the Township. The amazing thing about the great job done by the Public Works employees this winter is that, as Council knows, they have not received a raise since 2009 as a result of mismanagement by past administrations. McCauley stated that one of his goals for 2015 is that the Public Works Department receives a new contract and the employees receive significant raises for the tremendous work they have done throughout the past few years. Mr.
