PUBLIC HEARINGS:
Mr. Flager said Town Center (TC) Overlay District does not permit Fast Food Restaurants. The former Township Solicitor has drafted an Ordinance to change Fast Foods to a conditional use.
Motion by Ms. Longhitano to approve an Ordinance of the Township of Bristol, County of Bucks, amending the Bristol Township Zoning Ordinance, Section 303, Table of Use Regulations, Subsection D, Retail and Consumer Services Uses, by permitting Fast Food Restaurants by Conditional Use in the Town Center (TC) Overlay District. Second by Mr. Bowen.

Mr. Pluta questioned if a Fast Food Restaurant comes in and the Board elects for them to come in as a Conditional Use, when they move out is it transferred to the new owner.

Mr. Flager said the new company would have the right to come in for conditional use.

Mr. John Hanna 729 Cedar Avenue questioned why the new company would have the right to transfer. Council should have the right to stop someone from coming in.

Mr. Flager said they would still have to come to the Township. Fast Food Restaurants will be a permitted use. Council can set reasonable conditions.

Mr. Obert said there is a list of what is prohibited in Town Center for a reason, it will detract from the intention of Town Center.

Mr. Pluta said the reason the previous Council started with this is because by definition a Starbucks or Panera Bread are not permitted in Town Center District. They come in the category of fast food. By changing it to a conditional use Council has some control of what type of business goes in there.

Mr. Retzler questioned if later on another Fast Food Restaurant would want to come in and Council does not want them there and changes the Ordinance back would that be a setup for a Civil Right Violation.

Mr. Flager said that it is a hypothetical question and nobody can answer that question.

President Lewis closed the Public Hearing.
Motion carried by a vote of 7-0, unanimous.

Mr. Flager said they discussed various legal and personnel matters in Executive Session before the meeting.

Motion by Vice President Brennan to amend the Agenda. Second by Mr. Bowen.

Motion carried by a vote of 7-0, unanimous.

Vice President Brennan said there was a separate fund that could have possibly been used for Political reasons.

Motion by Vice President Brennan to direct and authorize the Township Manager to investigate and disclose any potential or alleged or suspected violations of the competitive bidding requirements of the First Class Township Code. Violations of Open Meeting Law of the First Class Township Code. Approving Contracts and spending Township Funds without Council approval at a Public Meeting. Maintaining undisclosed funds to pay projects not authorized by Council and misappropriating Township Funds. Second by Mr. Glasson.

Mr. Obert questioned how much it will cost and who is going to pay for it.

Vice President Brennan said the Manager is going to investigate.

Mr. Charlie Shaw asked if it was taxpayer money.

Vice President Brennan said if it is Township money it must be taxpayer money.

Andrew Mowena questioned if Council verified this before coming to the Council.

Vice President Brennan said yes.

Motion carried by a vote of 5-0 with Mr. Pluta and Mr. Tucker abstaining.
Presentation from Interim Township Manager on the Proposed Amended 2012 Town Budget.

Mr. McCauley said Council reopened the Budget with the goal of eliminating the 3/10 of a mill tax increase. He tried to accomplish Council’s directive with few changes as possible. He was successful in eliminating the 3/10 mill tax increase and lower the amount of fund balance being used to balance the 2012 Budget. The original adopted Budget used $709,455.00 to balance the General Fund; the proposed amended Budget is using $587,629.00. Mr. McCauley gave a Power Point Presentation to go over the proposed Budget and the causes of the Township’s financial crisis.

The interim Township Manager reported to Council that the proposed amended 2012 Township Budget had little impact on the overall financial situation of the township. He then reviewed the major funds that comprised the proposed $43,639,347 budget.

Mr. McCauley presented a slide showing that 82.13% of the General Fund was for salaries and benefits. Mr. McCauley presented slides detailing the history of township real estate tax millage since 2005 and the decline of the value of the mill since 2007. The Manager pointed out that of the average tax dollar; 10 cents went to Bristol Township and Bucks County, while 80 cents went to the Bristol Township School District using a pie chart and bar graph.

Mr. McCauley then presented slides detailing the cost of the township’s health insurance plans and the impact of providing such generous leave provisions in its contracts with unions.

The Manager presented a slide showing that $1,253,887.50 in the proposed 2012 budget could be directly attributable to financial mismanagement of the police pension plan and wastewater treatment plant and collection system. However, this cost was nothing in comparison to the next financial crisis looming over the township. The 2010 audit of financial statements outlined how the township had $67,917,267 of unfunded liability for Other Post Employment Benefits. The township should have reserved $12,539,886 as of December 31, 2010, but had set aside nothing for this expense. The impact of this situation is that the township will have negative net assets by 2014, if nothing is done as illustrated by the final slide in the budget presentation.
BRISTOL TOWNSHIP COUNCIL MEETING
FEBRUARY 15, 2012 CONTINUED

Mr. McCauley explained that the township could not afford it workforce or the cost of
the benefits being provided to them. Serious cost cutting would have to take place to
avoid a financial Armageddon. He further recommended that Council do everything it
could to encourage development and growth in the township’s tax base. However,
growth to the tax base would not be seen for five years, if we started now.

Mr. Bowen said besides the issues of not having money the State bought Jack’s
Marina to use for wetlands. That would have been a possibility of a good revenue
source. The Turnpike is coming and in taking businesses and residential homes we
lose that tax base too.

President Lewis thanked Mr. McCauley for a very well prepared overview of the
financial straights of the Township.

There were public comments on the presentation.

Mr. McCauley said that it is simple cost accounting; he spends more than twenty five percent of his time overseeing the operations of the Sewer Fund. Twenty five of his salary is being charged to the Refuse Fund and increased the Performance Grant by $55,000.00.

Motion carried by a vote of 6-1 with Mr. Pluta opposed.
