Mr. McCauley stated that the Township will perform the engineering work first and then make a decision on whether to complete the entire project or just a portion of the work. The goal is to get the plant rerated and increase capacity.

Mr. McCauley stated that Gilmore & Associates bid was not only the lowest price, but also fair and reasonable. He believes that the firm can provide the services in a professional manner.

Councilman Murray questioned why the bids varied so greatly and whether Gilmore & Associates would increase their price down the road.

Township Manager McCauley stated the price was fair given the scope of work and that a change order would be needed for additional work.

Vice President Longhitano questioned if Gilmore & Associates bid included a not to exceed clause.

Mr. McCauley stated that a not to exceed clause is unreasonable since the Department of Environmental Protection might later request additional work due to the Township still operating the Wastewater Treatment Plant under a consent order.
