**REPORT FROM TOWNSHIP MANAGER**

Township Manager expressed his condolences to the Moscatel family of Bristol Township for their recent loss.

Township Manager McCauley gave a presentation on the facts versus myths of police protection in Bristol Township. He stated there are misconceptions about the status of crime and police protection in the Township. Mr. McCauley stated that there is a myth that crime is escalating in Bristol Township, when in fact crime has decreased every year since 2011 evidenced by total crime incidents each year. He also stated that there is a myth that police staffing is dangerously low, when
in fact existing officers are simply working more hours. Mr. McCauley stated that more police protection does not equate to a reduction in crime as evidenced by numerous studies and that response times of officers has actually decreased in 2014 compared to 2013. Mr. McCauley further stated that it is a myth that everyone wants to hire more police officers, when in fact the Township would be financially devastated by increasing the staffing level to 78 police officers. In addition, he stated that such an increase would result in a 7 mill tax increase, which would amount to a $125 increase to the average homeowner. Mr. McCauley provided an overview of costs associated with a full-time patrolman as well as retiree healthcare costs. Mr. McCauley stated that lump sum payouts to retired officers are also exorbitant and that unfunded liabilities in 2014 are approximately $81 million. He stated that the current administration has a long-term strategy, including managing fiscal constraints, living within means, replacing infrastructure, and promoting job creation and economic development as a way to address inherited problems. He also stated that this Council had earned their legitimacy through competent, honest governance and an impressive list of accomplishments.

Mr. McCauley requested that Council approve the transfer of $50,000 from the Fund Balance toward the expansion of a surveillance camera program with a total cost of $100,000 in 2014.

Motion by President Lewis and seconded by Mr. Glasson to approve $50,000 to be transferred from the fund balance for a total of $100,000 toward the Camera Program in 2014.

*Motion carried unanimously by a vote of 7-0.*

Mr. McCauley stated that he wanted to respond to a Letter to the Editor that was written by a local resident, Malcolm Roach. Mr. McCauley stated that Mr. Roach has complained numerous times about maintenance issues, specifically grass cutting on the Greenbelt, and indicated that Mr. McCauley might not have been receptive to the complaints. Mr. McCauley stated that two out of three complaints from Mr. Roach referred to greenbelts maintained by Bucks County or Tullytown Borough. Usually, Mr. Roach’s complaints amounted to lumps of grass left after cutting. The Manager did say that this was not his biggest concern with service delivery and he related that to Mr. Roach. However, he speaks to Mr. Roach every time he calls and continues to strive to improve the quality of services delivered by the Township.
