Larry Young, of Tri-State Engineers, presented the application to Council for the property at 3115 Steele Avenue at the northern corner of Steele Avenue and Montana Street (Fifth Avenue.) It is an R-1 Residence District that permits single-family detached dwellings on lots having a minimum lot size of 10,000 square feet with a minimum lot width of 75 feet.

The proposal is to subdivide a 0.6636-acre site (28,907.46 square feet) into three single-family detached lots consisting of 10,004.97, 10,000.00 and 8,902.49 square feet. Proposed Lot 1 contains an existing single-family detached dwelling; single-family detached dwellings are intended to be constructed on proposed lots 2 and 3. On June 8, 2015, the Bristol Township Zoning Hearing Board granted a variance to permit Lot 3 to have a lot area of 8,902.49 square feet instead of the required 10,000 square feet. In August the Bristol Township Planning Commission recommended granting final approval.
